COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Responsive to the Examiner's stated reasons for allowance, Applicant comments as follows.

Applicant agrees with the Examiner that the prior art, taken either singly or in combination, fails to teach or suggest certain language indicated as appearing in certain claims. However, Applicant respectfully notes that the language cited by the Examiner in some instances does not identically appear in the claims. For example, the exact phrase "based on adjustment and plural predictor bits" [see Notice of Allowability at page 2] does not appear in any of claims 21-52.

To the extent the Examiner's stated reasons for allowance use language not identically appearing in the claims, Applicant notes that the claims are not limited by such language, but rather the actual language of the claims speaks for itself.
